STABILIZATION UNIVERSITY

AT GREEK PEAK MOUNTAIN RESORT

S E P T E M B E R 9 , 2 0 1 7

LEARN THE LATEST RES-Q-JACK VEHICLE STABILIZATION & LIFTING TECHNIQUES

Mark your calendars to join us at beautiful Greek Peak Mountain Resort in Cortland, NY for this full day of hands-on training using Res-Q-Jack's patented techniques! This annual, factory-hosted training day is our largest training event of the year and features 20 stations covering basic to advanced techniques. Unique scenarios taught by Res-Q-Jack professionals will keep your department up-to-date on basic techniques, while giving you the confidence to employ advanced techniques during rescue operations.

///RES-Q-JACK® OUR TOOLS SAVE LIVES

These words are explicitly stated on an 8-foot sign at our facility because they are the underlying concern of all that we do, from innovation, research, and development to manufacturing, shipping, training, and customer service.

Res-Q-Jack products originated with Cris Pasto in 1992, when he joined his Fire Department and discovered that his BoWrench and other inventions from Cepco Tool could be adapted to stabilization and fire rescue. Pasto then developed several variations of the stabilizing jack stand, and when I acquired the company in 2004, these products grew into what we know today as Res-Q-Jack.

Since its conception, Res-Q-Jack continues to take the lead in vehicle stabilization and extrication tools. Our high performance lifting and rescue struts stand out from the rest because of our unique combination of innovation, versatility, and in-depth training.

INNOVATION. Our engineers are constantly researching and developing, and our many patents are evidence of this consistent innovation. Our patents detail the lightest and strongest lifting struts available for patient access and en-

trapment; multifunction strut heads for rapid engagement; chains, straps, and stakes for safe restraint; and custom strut materials to fit each individual client's needs.

VERSATILITY. Our tools can be used in a wide range of applications, from simple stabilization to active rescue and extrication of a pinned victim. Most commonly, our struts are used in vehicle, farm, storm, trench, aircraft, confined space, and other rescue environments – but our customers continue to use our products in even more versatile ways. For instance, recently one of our struts was used to squeeze and seal an overturned fuel tanker hatch, in order to stop a spill in Trout Creek, NY and protect the nearby water reservoir.

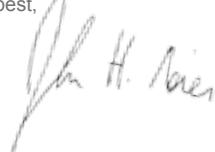

TRAINING. Our products come with free, hands-on, in-service training. We want you to be comfortable and successful using our tools, and we take no shortcuts in order to ensure that you are properly trained and can use all of our products correctly. Understanding our pioneering stabilization techniques and methods will help your success in the field, and these lessons are integrated into our training program, at your facility.

Since the inception of Res-Q-Jack, we've met the ever-increasing demand for the best in vehicle rescue equipment through innovation, versatility, and training as well as our dedication to listening to our customers and the rescue community at large for new and interesting ideas.

To this end, it is not just our innovative products and training programs that speak volumes as to our role as an aggressive industry leader. Nothing speaks as great as the incredible feedback we get from our customers with appreciation for the dependability of our equipment.

Please contact us if you have any questions or would like a demonstration of our equipment and techniques. And don't miss out on our latest innovations! Visit our web site at www.res-q-jack.com.

All the best,

John H. Meier, President, Res-Q-Jack, Inc.

PATENTED TECHNOLOGY PATENTED TRAINING

Constant research and development of our products and techniques has kept us at the top of the market. Not only do we have unique rescue struts with patented designs, but our techniques are patented as well, through thorough testing and development. And our products all come with free, on-site training! At Res-Q-Jack, we will work hard to supply you with the best equipment possible, and we will show you the best techniques to apply our products as safely and efficiently as possible.

AUTO X-STRUT®

FIRST RESPONDER LIFTING STRUT

The new Auto X-Strut® First Responder Strut puts the speed of pin-free operation in a compact package for the most intuitive, fastest-deploying vehicle stabilization & lifting strut on the market. This light-weight, ultra-portable strut features a milled aluminum inner tube, allowing for fast and smooth adjustment without the need for pins. The unique combination of a square aluminum outer tube allows for a built-in ratchet strap which doubles as a convenient carry handle, while the internal positive stop eliminates the risk of overextension.

• PIN-FREE DESIGN

The Auto X-Strut® triple-lead threading allows for fast and smooth adjustment without pins, making setup and chasing a breeze. The threaded tube allows for infinitesimal height adjustment when stabilizing or lifting and lowering loads.

• TWIST-FREE INNER TUBING

Milled 6061-T6 aluminum inner tube combines with a welded square chassis, allowing for a positive stop, keeping the inner tube from rotating under lighter loads, and eliminating the risk of overextension.

• X-STRUT® LIFTING POWER

The Auto X-Strut® transforms from a shoring strut to a lifting strut in seconds with our removable mechanical Add-On Jack, (pictured right) giving you 2,500 lbs. of lifting capacity with 12 inches of resettable travel when you need it.

• QUICK RELEASE HEAD FITTING

Change end fittings in an instant with the pull of a single retaining pin. Comes standard with our 360° swiveling head for precise placement on any purchase point.

• COMPATIBLE HEAD FITTINGS

Auto X-Strut® head fittings are compatible with our Super X-Strut® fitting as well as competitor head fittings.

• ON-BOARD RATCHET

Choose from our standard ratchet strap or ratchet strap with slack management system (pictured). Ratchet system doubles as convenient carry handle.

TECHNICAL SPECIFICATIONS

2:1 SAFETY FACTOR

In-house & 3rd party tested

SHORING WORKING LOAD: 3,250 LBS.

Fully extended with centered load.

LIFTING WORKING LOAD: 2,500 LBS.

With Add-On Jack, fully extended, centered load.

WEIGHT LONG STRUT:
37 LBS.
WEIGHT SHORT STRUT:
31 LBS.

ADD-ON JACK

ATX-JACK | \$438.00

This jack is made specifically for the new Auto X-Strut® with a 2,500 lb lifting capacity and a 2:1 safety factor.

Jack Weight: 16 lbs.

SHORT STRUT

ATX-STRT-S | \$1,912

The short Auto X is a compact, easily portable, easily storable, all-in-one strut. The short Auto X accepts our Super X 12" extension for more length (pg 34). Comes standard with our Swivel CRG end fitting,

Height Extended: 66.75" / Collapsed: 44"

LONG STRUT

ATX-STRT-L | \$1,912

The standard-length Auto X is a light-weight, easily portable, all-in-one strut for light-duty rescue scenarios. Comes standard with our Swivel CRG end fitting. (Extensions are not currently permitted on standard size strut)

Height Extended: 87.25" / Collapsed: 54.5"

AUTO X-STRUT® COMPLETE KITS

Our kits are designed through years of experience and customer feedback to give you many capable options to suit your needs and your budget. Each kit includes a number of struts in standard configuration, along with complementing accessories.

1 CHOOSE YOUR KIT

We've designed our kits through years of experience and feedback to give you options to fit your needs and your budget.

2 CHOOSE YOUR STRUTS

Choose any combination of short or long strut. When choosing sizes, we recommend an equal number of short and long struts when possible.

3 GET YOUR FREE TRAINING

All of our kits come with intensive in-service training at your facility, at no cost to you!* Your authorized dealer will provide you and your crew basic training on your new tools until you are comfortable using them.

*Valid within the continental US only.
Dealer may add a travel charge for instances of excessive travel.

2-POINT STANDARD

ATX-2KIT | \$5,100

This kit gives you the ability to perform the four basic techniques found in our Quick Reference Guide, including: Wheel-Resting Side Lift, Wheel-Resting Rear Lift, Side-Resting Front Lift, and Roof-Resting Rear Lift.

Kit Contents:

- (2) Auto X-Struts (short or long)
- (2) Auto X-Strut Add-On Jacks
- (1) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Snaps
- (2) Clusters
- (2) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks

TEXAS 3-POINT

ATX-TX3P | \$8,395

This kit allows for stabilization and lifting of one car. Because the kit comes with a variety of accessories, it is also suitable for stabilization in complicated or multi-vehicle scenarios.

Kit Contents:

- (3) Auto X-Struts (short or long)
- (2) Auto X-Strut Add-On Jacks
- (1) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (2) Clusters
- (2) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (2) Wood/Plastic Hybrid Wedges
- (1) 4' long 1" Picket w/ Collars

4-POINT DELUXE

ATX-4PTX | \$9,219

This kit gives you the ability to stabilize two cars and lift one of them. With enough accessories to manage and control all directions of movement, this kit is the best all-around package.

Kit Contents:

- (4) Auto X-Struts (*short or long*)
- (2) Auto X-Strut Add-On Jacks
- (2) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (4) Clusters
- (4) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (2) Wood/Plastic Hybrid Wedges
- (2) 20" long 1" Stakes w/ Heads
- (2) 4' long 1" Pickets w/ Collars

**2-CAR DELUXE**

ATX-2CRX | \$13,184

This kit is capable of stabilizing and lifting two cars in almost any situation, and can handle up to three cars in a more simple application. Accessories allow for many different applications and make stabilization in complex scenarios faster and easier.

Kit Contents:

- (6) Auto X-Struts (*short or long*)
- (3) Auto X-Strut Add-On Jacks
- (4) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (4) Clusters
- (4) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (4) Wood/Plastic Hybrid Wedges
- (4) Load Spread Pads
- (4) 20" long 1" Stakes w/ Heads
- (4) 4' long 1" Pickets w/ Collars

SUPER X-STRUT® PIN-FREE LIFTING STRUT

Featuring threaded collars in place of our standard pins, the Super X-Strut® is our most intuitive and fastest-deploying strut. The Super X is not only effective for vehicle stabilization, lifting and extrication. It's also rugged enough for structural collapse, trench, and mine rescue (see our Technical Kits). The Super X comes standard with a hollow inner tube (red) for a lighter-weight strut, but it may also be purchased with a solid inner tube (black) for a higher working load. With the highest working load of all our struts, the Super X is ideal for heavy rescue, but can also quickly stabilize and lift a small vehicle.

• PIN-FREE DESIGN

The Super X-Strut® threaded tube design eliminates the need for pins, making set-up faster than ever. The threaded tube allows for infinitesimal height adjustment when stabilizing or lifting and lowering loads.

• 19,300 + LBS. SHORING (2:1)

Milled 6061-T6 aluminum construction provides heavy duty strength while keeping weight down. Get even more capacity with our solid inner tubing (call for more info).

• QUICK RELEASE END FITTINGS

Change end fittings in an instant with the pull of a single retaining pin. Because Super X-Strut® is compatible with other manufacturers end fittings, you can swap out with neighboring departments during mutual aid response.

• AVAILABLE AIR FITTINGS

Call us to ask about having the Super X-Strut® milled with our air fitting for use with pneumatic systems.

• X-STRUT® LIFTING POWER

The Super X-Strut® transforms from a shoring strut to a lifting strut in seconds with our removable mechanical Add-On Jack, (pictured left) giving you 6,000 lbs. of lifting capacity with 12 inches of resettable travel when you need it.

• COMPATIBLE HEAD FITTINGS

Auto X-Strut® head fittings are compatible with our Super X-Strut® fitting as well as competitor head fittings. Comes standard with our Swivel CRG.

TECHNICAL SPECIFICATIONS

2:1 SAFETY FACTOR

In-house & 3rd party tested

- (1) 12" Extensions
- (1) 24" Extensions
- (1) 36" Extensions
- (2) Swivel CRG Head Fittings
- (3) Flat Plate End Fittings
- (3) Trench Plate End Fittings
- (2) Large Base Plates

ALUMINUM X-STRUT® HEAVY-DUTY LIFTING STRUT

The Aluminum X is a premium lifting strut built from 6061-T6 aluminum and boasting a 10,000lb. working load limit, without adding significant weight. With the X-Strut® Series Add-On Jack technology delivering 6,000 lbs. of lifting power, this strut is heavy duty in a manageable package, allowing for easy deployment and the ability to focus on a potential victim inside the vehicle. Our lightweight, but high performance Aluminum X is great for departments who see heavier vehicle accidents or who want the added security of a heavy-duty strut.

• OVERSIZE CONE PINS

The Aluminum X-Strut® operates with our custom-manufactured oversize cone pins. The special flared-design automatically aligns with the jack for faster setup. The unique shape also makes these pins easier to grip and harder to lose.

• BASE-MOUNTED D-RINGS

Pivoting rings built into the baseplate allow for fast attachment of straps, hooks and chains, or double as a picket receiver when anchoring is needed.

• X-STRUT® LIFTING POWER

The Aluminum X-Strut® transforms from a shoring strut to a lifting strut in seconds with our removable mechanical Add-On Jack, (pictured left) giving you 6,000 lbs. of lifting capacity with 12 inches of resettable travel when you need it.

• ON-BOARD RATCHET STRAP

The Aluminum X-Strut® and Phoenix Aluminum X-Strut® each include a ratchet strap with wire hooks mounted on the side of the strut chassis, keeping your strap right where you want it for faster response.

ADD-ON JACK

ALX-JACK | \$781.00

This jack is made specifically for the Aluminum X-Strut® with a 6000 lb lifting capacity and a 2:1 safety factor.

Jack Weight: 25 lbs.

TECHNICAL SPECIFICATIONS

2:1 SAFETY FACTOR
In-house & 3rd party tested

SHORING WORKING LOAD: 10,000 LBS.
Fully extended with centered load.

LIFTING WORKING LOAD: 6,000 LBS.
With Add-On Jack, fully extended, centered load.

WEIGHT LONG STRUT: 42 LBS.
WEIGHT PHOENIX STRUT: 36 LBS.
WEIGHT SHORT STRUT: 30 LBS.

SHORT STRUT
SAX-STRT | \$1,891

The short Aluminum X is designed for lower-lift engagements and increased storage options. Comes standard with our Swivel CRG, and one Ratchet Strap with Wire Hooks. *Ratchet Strap NOT built-in on short strut.*

Height Extended: 66.5" / Collapsed: 40"

PHOENIX STRUT
ALX-STRT-PH | \$1,997

The Phoenix Aluminum X boasts all the same features as the full-sized model, but at a slightly smaller size for easy storage. Comes standard with our Swivel CRG and built-in Ratchet Strap with Wire Hooks.

Height Extended: 86.5" / Collapsed: 51"

LONG STRUT
ALX-STRT | \$1,891

The standard-length Aluminum X is designed for typical heavy-duty rescue scenarios. Comes standard with our Swivel CRG and built-in Ratchet Strap with Wire Hooks.

Height Extended: 98" / Collapsed: 56"

ALUMINUM X-STRUT® COMPLETE KITS

Our kits are designed through years of experience and customer feedback to give you many capable options to suit your needs and your budget. Each kit includes a number of struts in standard configuration, along with complementing accessories.

1 CHOOSE YOUR KIT

We've designed our kits through years of experience and feedback to give you options to fit your needs and your budget.

STEEL X-STRUT®

The Steel X-Strut® is the most well-rounded steel stabilization strut on the market. The Steel X-Strut® is a heavy duty and affordable addition to the X-Strut® Series. Filling the gap between the lightweight Green Lite™ and our premium Aluminum X, the Steel X combines the functionality of the X-Strut® Series with enough working load for all of your common rescue situations.

• X-STRUT® LIFTING POWER

The Steel X-Strut® transforms from a shoring strut to a lifting strut in seconds with our removable mechanical Add-On Jack, (pictured left) giving you 4,000 lbs. of lifting capacity with 12 inches of resettable travel when you need it.

• 4,000 LBS. SHORING (2:1)

The Steel X-Strut® is built from rugged steel for strength, then powder coated for years of durability.

• ERGONOMIC CONE PINS

Our exclusive cone pin design features a flared end, making these pins easy to grip and hard to lose on scene. The flared end also helps automatically line up the available Add-On Jack for fast and easy attachment.

• SWIVEL CRG END FITTING

The Steel X-Strut® includes our 3-in-1 Swivel CRG. head fitting which rotates 360° to easily find any purchase point.

• ON-BOARD RATCHET STRAP

The standard size Steel X-Strut® includes a ratchet strap with wire hooks mounted on the side of the strut chassis, keeping your strap right where you want it for faster response.

• BASE-MOUNTED D-RINGS

Pivoting rings built into the baseplate allow for fast attachment of straps, hooks and chains, or double as a picket receiver when anchoring is needed.

SSX-STRT | \$1,418

The short Steel X is designed for lower-lift engagements and increased storage options. Comes standard with our Swivel CRG, and one Ratchet Strap with Wire Hooks. *Ratchet Strap NOT built-in on short strut.*

Height Extended: 60" / Collapsed: 40"

LONG STRUT

STX-STRT | \$1,418

The standard-length Steel X is designed for typical rescue scenarios involving most common vehicles. Comes standard with our Swivel CRG and built-in Ratchet Strap with Wire Hooks.

Height Extended: 83.5" / Collapsed: 53"

STEEL X-STRUT® COMPLETE KITS

Our kits are designed through years of experience and customer feedback to give you many capable options to suit your needs and your budget. Each kit includes a number of struts in standard configuration, along with complementing accessories.

1 CHOOSE YOUR KIT

We've designed our kits through years of experience and feedback to give you options to fit your needs and your budget.

2 CHOOSE YOUR STRUTS

Choose any combination of short or long strut. When choosing sizes, we recommend an equal number of short and long struts when possible.

3 GET YOUR FREE TRAINING

All of our kits come with intensive in-service training at your facility, at no cost to you!* Your authorized dealer will provide you and your crew basic training on your new tools until you are comfortable using them.

*Valid within the continental US only.
Dealer may add a travel charge for instances of excessive travel.

2-POINT STANDARD

STX-2KIT | \$4,825

This kit gives you the ability to perform the four basic techniques found in our Quick Reference Guide, including: Wheel-Resting Side Lift, Wheel-Resting Rear Lift, Side-Resting Front Lift, and Roof-Resting Rear Lift.

Kit Contents:

- (2) Steel X-Struts (short or long)
- (2) Steel X-Strut Add-On Jacks
- (1) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Snaps
- (2) Clusters
- (2) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks

TEXAS 3-POINT

STX-TX3P | \$5,919

This kit allows for stabilization and lifting of one car. Because the kit comes with a variety of accessories, it is also suitable for stabilization in complicated or multi-vehicle scenarios.

Kit Contents:

- (3) Steel X-Struts (short or long)
- (2) Steel X-Strut Add-On Jacks
- (1) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (2) Clusters
- (2) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (2) Wood/Plastic Hybrid Wedges
- (1) 4' long 1" Picket w/ Collars

4-POINT DELUXE

STX-4PTX | \$6,745

This kit gives you the ability to stabilize two cars and lift one of them. With enough accessories to manage and control all directions of movement, this kit is the best all-around package.

Kit Contents:

- (4) Steel X-Struts (short or long)
- (2) Steel X-Strut Add-On Jacks
- (2) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (4) Clusters
- (4) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (2) Wood/Plastic Hybrid Wedges
- (2) 20" long 1" Stakes w/ Heads
- (2) 4' long 1" Pickets w/ Collars

**2-CAR DELUXE**

STX-2CRX | \$9,345

This kit is capable of stabilizing and lifting two cars in almost any situation, and can handle up to three cars in a more simple application. Accessories allow for many different applications and make stabilization in complex scenarios faster and easier.

Kit Contents:

- (6) Steel X-Struts (short or long)
- (3) Steel X-Strut Add-On Jacks
- (4) Ratchet Straps w/ Wire Hooks
- (2) Ratchet Straps w/ Chains
- (3) Ratchet Straps w/ Snaps
- (4) Clusters
- (4) 4' Chains w/ 8" J, Grabs, Mini-J & T-Hook
- (1) Grade 80 Chain w/ Grab Hooks
- (4) Wood/Plastic Hybrid Wedges
- (4) Load Spread Pads
- (4) 20" long 1" Stakes w/ Heads
- (4) 4' long 1" Pickets w/ Collars

GREENLITE™ X-STRUT®

LIGHT-DUTY LIFTING STRUT

You don't need to sacrifice quality or effectiveness to come in at your budget. The GreenLite™ X-Strut® boasts the same features as our bigger struts, but is scaled down for use with lighter-duty vehicles. When combined with the Add-On Jack, our GreenLite™ is hands-down, the MOST CAPABLE strut you can get in this price range. This light-duty strut packs all the features of the X-Strut® Series, but measures in at a fraction of the weight. With a 2,500 lb. working load limit, the Green Lite™ is perfect for departments that see many compact car accidents. Using the Green Lite™ Add-On Jack, you'll also get an additional 2,500 lbs. of lift! The Green Lite™ is an affordable and lightweight way to outfit your rescue.

• X-STRUT® LIFTING POWER

The GreenLite™ X-Strut® transforms from a shoring strut to a lifting strut in seconds with our removable mechanical Add-On Jack, (pictured left) giving you 2,500 lbs. (2:1) of lifting capacity with 12 inches of resettable travel when you need it.

• ERGONOMIC CONE PINS

Our exclusive cone pin design features a flared end, making these pins easy to grip and hard to lose on scene. The flared end also helps automatically line up the available Add-On Jack for fast and easy attachment.

• ON-BOARD RATCHET STRAP

The standard size GreenLite™ X-Strut® includes a ratchet strap with wire hooks mounted on the side of the strut chassis, keeping your strap right where you want it for faster response.

• BASE-MOUNTED D-RINGS

Pivoting rings built into the baseplate allow for fast attachment of straps, hooks and chains, or double as a picket receiver when anchoring is needed.

• SWIVEL CRG END FITTING

The GreenLite™ X-Strut® includes our 3-in-1 Swivel CRG head fitting which rotates 360° to easily find any purchase point.

TECHNICAL SPECIFICATIONS

2:1 SAFETY FACTOR

In-house & 3rd party tested

SHORING WORKING LOAD: 2,500 LBS.

Fully extended with centered load.

LIFTING WORKING LOAD: 2,500 LBS.

With Add-On Jack, fully extended, centered load.

WEIGHT LONG STRUT:
31 LBS.
WEIGHT SHORT STRUT:
23 LBS.

ADD-ON JACK

GLX-JACK | \$433.00

This jack is made specifically for the GreenLite™ with a 2,500 lb. lifting capacity and a 2:1 safety factor.

Jack Weight: 16 lbs.

SHORT STRUT

SGL-STRT | \$702.00

The short GreenLite is designed for lower-lift engagements and increased storage options. Comes standard with our Swivel CRG, and one Ratchet Strap with Wire Hooks. *Ratchet Strap NOT built-in on short strut.*

Height Extended: 64" / Collapsed: 42"

LONG STRUT

GLX-STRT | \$702.00

The standard-length GreenLite is designed for typical rescue scenarios involving smaller vehicles. Comes standard with our Swivel CRG and built-in Ratchet Strap with Wire Hooks.

Height Extended: 87.5" / Collapsed: 54"

GREENLITE™ X-STRUT® COMPLETE KITS

Our kits are designed through years of experience and customer feedback to give you many capable options to suit your needs and your budget. Each kit includes a number of struts in standard configuration, along with complementing accessories.

- (4) 20" long 1" Stakes w/ Heads
- (4) 4' long 1" Pickets w/ Collars

RJ3 SERIES / SPACESAVER

STABILIZATION & LIFTING STRUTS

The RJ3 Series is our longest standing line of stabilization and lifting struts. Each strut is made from heavy-duty steel and operates with hardened steel tab-lock pins. The RJ3 and Spacesaver Jack Stands feature integrated jacks for 4,000 lbs. of built-in lifting power at a 2:1 Safety Factor!

RJ3 JACK STAND
RJ3-JKST | \$1,431

The RJ3 Jack Stands are the struts that started it all. This strut revolutionized the industry with its integrated jack, giving you the ability to lift while stabilizing. Featuring a modular design, the RJ3 Jack Stand is capable of being disassembled and rearranged to accommodate different applications. The RJ3 Series struts are designed to be rugged, versatile and easy to use. Operates with our easy-to-use Tab-Lock pins. Includes CAM Buckle Straps, carry handle, and Swivel CRG Head Fitting.

TECHNICAL SPECIFICATIONS

2:1 **2:1 SAFETY FACTOR**
In-house & 3rd party tested

SHORING WLL: **4,000 LBS.**
Fully extended with centered load.

LIFTING WLL: **4,000 LBS.**

HEIGHT EXTENDED: **106"**
HEIGHT COLLAPSED: **52.5"**

WEIGHT TOTAL: **53 LBS.**

SPACESAVER JACK STAND

SPS-JKST | \$1,560

The Spacesaver Jack Stand is the answer to your common storage problems! The Space Saver series maintains the same WLL and many of the same features as the standard RJ3, but has the ability to collapse to just 36.5" for easy storage. This strut features a modular design and operates with our easy-to-use Tab-Lock pins. Includes CAM Buckle Straps, carry handle, and Swivel CRG Head Fitting.

TECHNICAL SPECIFICATIONS

2:1 **2:1 SAFETY FACTOR**
In-house & 3rd party tested

SHORING WLL: 4,000 LBS.
Fully extended with centered load.

LIFTING WLL: 4,000 LBS.

HEIGHT EXTENDED: 103"
HEIGHT COLLAPSED: 36.5"

WEIGHT TOTAL: 54 LBS.

RJ3 ADJUSTABLE STAND

RJ3-ADST | \$721.00

The RJ3 Adjustable Stand is our most simple vehicle stabilization strut, with a single pin operation. The RJ3 Adjustable Stand operates with our easy-to-use Tab-Lock pins, and includes CAM Buckle Straps, Fixed CRG Head Fitting and built-in carry handle. **Stabilization only, no lifting capability.**

TECHNICAL SPECIFICATIONS

2:1 **2:1 SAFETY FACTOR**
In-house & 3rd party tested

SHORING WLL: 4,000 LBS.
Fully extended with centered load.

LIFTING WLL: NONE

HEIGHT EXTENDED: 86"
HEIGHT COLLAPSED: 55"

WEIGHT TOTAL: 37 LBS.

SPACESAVER ADJUSTABLE STAND

SPS-ADST | \$911.00

The Spacesaver Adjustable Stand features the same collapsible design as the Jack Stand, but is built strictly for vehicle stabilization. This strut features a modular design and operates with our easy-to-use Tab-Lock pins. Includes CAM Buckle Straps, carry handle, and Swivel CRG Head Fitting. **Stabilization Only, no lifting capability.**

TECHNICAL SPECIFICATIONS

SPX TRENCH SHORE

TRENCH RESCUE SYSTEM

The new Super X Trench Shoring System excels in any trench rescue scenario. Machined from high grade aluminum and featuring the same functionality as our Super X-Strut® line, the Trench Shoring System will meet all your trench shoring needs. These struts are available in three sizes to accommodate a variety of situations, and each is compatible with our Super X-Strut® components, as well as competitor components.

• PATENTED LOCKING PIN

Our patented internal locking pin creates a positive stop, eliminating the risk of overextension while keeping the inner tube from disengaging.

• HOLLOW INNER TUBING

The Super X Trench Shore is designed to be fast and easy-to-deploy. Our hollow inner tubing saves up to 5 lbs. of added weight vs. solid tubing.

• PNEUMATIC ACTIVATION

Our Trench Shore Struts are hydrostatically tested up to 800 PSI for use with compressed air systems.

• AMBIDEXTROUS END FITTINGS

Use extensions on either end for up to 4 extra feet in length (max: 2 extensions).

TECHNICAL SPECIFICATIONS

2:1 SAFETY FACTOR

In-house & 3rd party tested

SHORING WLL:

At various lengths

26 INCHES:	38,000 LBS.
50 INCHES:	30,600 LBS.
74 INCHES:	25,150 LBS.
94 INCHES:	14,180 LBS.
112 INCHES:	10,420 LBS.

SMALL TRENCH SHORE

SPX-TS22 | 22"-26" | \$CALL

Includes two Swivel Trench Plate end fittings.
Compatible with all Super X Extensions with a maximum of two extensions. (see next page)

Length Extended: **22"** / Collapsed: **26"**

MEDIUM TRENCH SHORE

SPX-TS32 | 32"-46" | \$CALL

Includes two Swivel Trench Plate end fittings.
Compatible with all Super X Extensions with a maximum of two extensions. (see next page)

Length Extended: **46"** / Collapsed: **32"**

LONG TRENCH SHORE

SPX-TS42 | 42"-64" | \$CALL

Includes two Swivel Trench Plate end fittings.
Compatible with all Super X Extensions with a maximum of two extensions. (see next page)

Length Extended: **64"** / Collapsed: **42"**

PIN-FREE EXTENSION TUBING

Reach new heights with these extension tubes. These easy-to-use extensions are machined from 6061 T-6 aluminum and provide extra length to your Super X-Strut. Available in one, two and three foot lengths. **12" Extension is compatible with the new Auto X-Strut®**

SPX-12EX | 12" | \$322.00
 SPX-24EX | 24" | \$349.00
 SPX-36EX | 36" | \$375.00

**LARGE BASE PLATE**

SPX-12BP | \$480.00

This 12" swiveling base plate will work in a wide range of scenarios, especially when you need to spread out the load on soft ground. Includes attachment for straps. Made from machined aluminum.

**SMALL EXTRICATION BASE PLATE**

SPX-EXBP | \$394.00

Our standard, swiveling base plate, but built specifically for the Super X. This lightweight design includes D-rings for stakes or for engaging straps and chains. Features machined aluminum attachment with powder coated steel base and rings.

**SWIVEL CRG HEAD**

SPX-SCRG | \$419.00

The CRG combines the Channel, Round Point and Chain Grab end fittings into one revolutionary head, and makes changing heads during a rescue unnecessary. Features machined aluminum attachment with powder coated steel tip. *Fits Super X and Auto X-Struts.*

**SUPER X TRIPOD HEAD**

SPX-TRPD | \$956.00

Turn three Super X-Struts into a technical rescue tripod with this pin-free head fitting. The Tripod Head features a powder coated steel crown with three machined aluminum attachments for fast setup. Struts sold separately.

**SWIVEL TRENCH PLATE**

SPX-TRBP | \$307.00

This swiveling ball-joint plate is ideal for trench rescue shoring, with 4 corner holes for securing with nails or screws. Made from machined aluminum.

**FLAT PLATE HEAD**

SPX-FLTH | \$135.00

This 6" fixed plate is your straightforward shoring head. Recommended for structural applications with the Super X-Strut, but also compatible with the SPX Trench Shore. Made from machined aluminum.

TURN YOUR STRUTS INTO A TRIPOD!

These **TRIPOD HEADS** are designed to work with our pin-operated struts, turning them into a tripod for technical rescue scenarios. Features powder coated steel crown and tubular steel legs. Secured with our hardened steel tab lock pins. Steel X/ RJ3 and GreenLite heads include 36" extensions to reach up to 9 feet.

ALX-TRPD | Aluminum | \$556.00
 RJ3-TRPD | Steel/RJ3 | \$502.00
 GLX-TRPD | GreenLite | \$412.00

SWIVEL CRG HEAD

The CRG combines the Channel, Round Point and Chain Grab end fittings into one revolutionary head, and makes changing heads during a rescue unnecessary. The swivel CRG tip swivels 360° to easily find purchase points at any angle.

ALX-SCRG | Aluminum | \$349.00
 STX-SCRG | STX/SPS Swivel | \$338.00
 RJ3-SCRG | RJ3 Swivel | \$338.00
 GLX-SCRG | GLX Swivel | \$338.00

FIXED CRG HEAD

RJ3-FCRG | \$266.00

The same basic design and functionality as our Swivel CRG Head, but without the ability to swivel. Currently only available as a replacement for the RJ3 Jack Stand.

**SQUARE HEAD**

ALX-SQUR | Aluminum | \$174.00
RJ3-SQUR | Steel/RJ3 | \$163.00

This end fitting is equipped with a square plate for use in structural situations like light shoring against a flat overhead surface.

**L-PLATE**

ALX-LPLT | Aluminum | \$247.00
RJ3-LPLT | Steel/RJ3 | \$236.00

This end fitting is designed for beam support during lightweight structural shoring. Its L-shaped design cradles the beam, and includes holes on each side for securing with nails or screws.

**C-HEAD**

ALX-CCHED | Aluminum | \$174.00
RJ3-CCHED | Steel/RJ3 | \$163.00

This end fitting allows for a cradle of wide members, such as an A-post, with an assuredly positive hold.

**RJ3 BASE**

RJ3-BASE | \$286.00

Our standard base plate for the RJ3 Series. D-Ring links are permanently attached for easy connection of base restraints, as well as cam buckle straps for convenience. *Compatible with RJ3 only.*

**FIXED BASE**

RJ3-FBAS | \$316.00

This rigid base stands straight up, and is useful for many applications, such as a jack unit serving as a low level object lifting device, for roll-overs or confined space applications. *Compatible with RJ3 only.*

**RJ3 STRUCTURAL PACKAGE**

PKG-STRL | \$681.00

The Structural accessory package includes the end fittings made for structural rescues, and the fixed base which is designed specifically for structural applications. *Compatible with RJ3 only.*

PRECISE PICKET PLACEMENT MADE EASY!

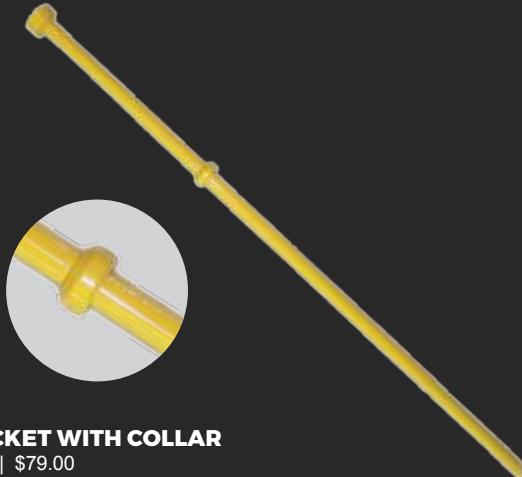

Our new **EZ PICKET PLATE** features three oversized collars for 1" diameter pickets, which are set at 20° angles for fast and precise placement. Includes two extra holes to accommodate pickets up to 1 5/8" diameter.

The EZ Picket Plate measures 30" long by 6" wide and features a built-in carry handle, D-Ring and diamond plate foot print.

ACC-EAPP EZ Picket Plate \$452.00

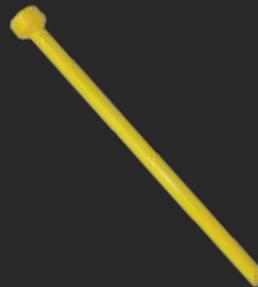

Lines up pickets at the perfect angle!

SOLID PICKET WITH COLLAR

ACC-PCKT | \$79.00

This picket is 4 ft. long and features a solid core, 45° angled tip, and welded collar. Measures 1" in diameter and weighs 11.5 lbs.

BASIC STAKE

ACC-STKE | \$46.00

Our Basic Stake is 20" long and features a solid core with a 45° tip. Measures 1" in diameter and weighs 5 lbs.

**RATCHETING WHEEL CHOCK**

ACC-WCHK | \$279.00

A rugged and easy-to-use option for chocking wheels, this chock won't "push" both sides of the wheel with just one piece of equipment, as do oversized blocks and chocks.

**RAM PLATE**

ACC-RAMP | \$181.00

This heavy duty, multi-purpose ram support plate should be placed over a rocker panel to achieve multiple engagement points for your ram when performing a dash displacement.

**LOAD PAD**

ACC-LOAD | \$115.00

This 14" x 14" load pad allows you to spread the load evenly over soft ground. Four carry holes double as stake holes, and the inner strut pocket is designed to fit the strut base.

**CONE PIN**ACC-SCNP | STX/GLX | \$65.00
ACC-ACNP | Aluminum | \$113.00

Shipped with our X-Strut® Series, these ergonomic pins are easy to operate and fast to use. Steel X pins and Green Lite™ pins are 3/8" in diameter (4,000 lbs. WLL), and Aluminum X pins are 3/4" in diameter (10,000 lbs. WLL).

**TAB LOCK PIN**ACC-TABO | RJ3/SPS-Orange | \$18.00
ACC-TABR | RJ3/SPS-Red | \$18.00

Our standard, easy-to-use, 3/8" diameter pins. With a self-contained method of retaining the pin, our tab lock pins eliminates cotter pins or other accessories that would require removal of gloves (4,000 lbs. WLL).

**EXTENSION TUBING**

ACC-EXTT | \$2.50/inch

We offer custom sizes of extension tubing to maximize adjustability of stands. Available in either 2" or 2 1/4" sizes. Price is per inch of tubing.

**CAM BUCKLE STRAP**

ACC-CAMB | \$51.00

Attached to a bolt plate for easy connection to a base, this strap is 2" x 9' with a 700 lb. WLL and an S-hook at its end.

**RATCHET STRAP W/ CHAIN**

ACC-RSCH | \$110.00

This 27' strap is 2" wide with a 3300 lb. WLL. Its attached D-Ring, 3/8" chain, and grab hook provide a strong base restraint.

**RATCHET STRAP W/ WIRE HOOKS**

ACC-RSWH | \$64.00

This 15' strap is 2" wide with a 3300 lb. WLL. It includes ratchet and attached wire hooks which are compatible with our base plates.

**RATCHET STRAP W/ SNAP HOOKS**

ACC-RSSN | \$62.00

This 2" x 15' medium duty ratchet strap has a WLL of 2000 lbs., and the snap hooks at each end can hook inside items such as a link of 3/8" chain.

**T-HOOK**

ACC-THKL | \$30.00

These hooks are designed to fit most car frame slots and come with links for easy application. Hooks are grade 70 and rated for 4700 lbs.

**CLUSTER**

ACC-CLST | \$55.00

This cluster of hooks contains one T-Hook, one mini-J and 2 grab hooks. With two connecting links for rapid attachment, this grade 70 cluster is convenient for any scenario.

**J-HOOKS**

ACC-JHK8 | 8" | \$47.00
ACC-JH15 | 15" | \$61.00

These large hooks can attach to a wide variety of structures including posts, axles, or frame components. The hooks are grade 70, rated for 4700 lbs., and come in two useful sizes.

**CHAIN & HOOK SLING ASSEMBLY**

ACC-SLG8 | 8" | \$118.00
ACC-SL15 | 15" | \$128.00

Designed specifically for vehicle stabilization, these J-Hooks are attached to a grab hook and 4' of 5/16" grade 70 chain connected to another grab hook, a mini-J and a T-Hook.

**GRADE 80 CHAIN**

ACC-CHAN | 16' | \$450.00
ACC-CHAN | 20' | \$518.00

This rugged chain is 3/8" with grab hooks and a WLL of 7100 lbs., this chain is approved for overhead lifting. Available in 16' or 20' lengths.

**CHAIN SHORTENER**

ACC-CHSH | \$54.00

The chain shortener consists of two 3/8" grade 80 grab hooks connected by two 3/8" grade 80 chain links, allowing you to shorten a chain by making a loop anywhere in the chain.

**RATCHET BINDER**

ACC-RTCH | \$98.00

Great for tightening chain in many different stabilization situations, the ratchet binder is fast, convenient and easy to use.

**HYBRID WEDGE**

ACC-WDGE | \$71.00

This wedge is made with plastic sandwiched between two pressure treated wood skins, reducing slippage associated with all-plastic cribbing.

RES-Q-SAW HEAVY-DUTY CUTTING SAW

Gaining access to a car in an MVA can take long, precious moments. With the Res-Q-Saw, you can significantly reduce access time, saving those critical moments.

The Res-Q-Saw is capable of cutting steel, aluminum and stainless steel without heat, burrs or coolant. The powerful motor is double-insulated and Earth-grounded, and can cope with the heaviest of work. The Res-Q-Saw is perfect to aid in vehicle stabilization and extrication. With a long-life blade that will cut up to 260 feet of 1/4" steel plate, the Res-Q-Saw's high-quality construction comes with a full one-year warranty.

The Res-Q-Saw package includes heavy-duty carrying case, safety goggles and earplugs.

SPECIFICATIONS: • Weight: 19.75 lbs. • Arbor: 1" • Amps: 15 • Watts: 1750
